

Introducing the Sound of Luxury Performance.

2004-06 Cadillac XLR

Bold when you want it to be.
Quiet when it needs to be.

CORSA[®]
PERFORMANCE EXHAUSTS

Having defined the standard in the aftermarket exhaust industry with the Corvette C5 exhaust system in 1998, CORSA was ready to take on the challenge of designing premium systems for a wide variety of vehicles. CORSA has done just that. Today, CORSA has set a world standard in the industry. Discriminating Cadillac owners everywhere have chosen to enhance their vehicles with the sound and look of CORSA. With systems already developed for the STS, DTS, CTS, CTS-V, Escalade and Escalade EXT, CORSA introduces luxury performance sound and superb looks for your XLR.

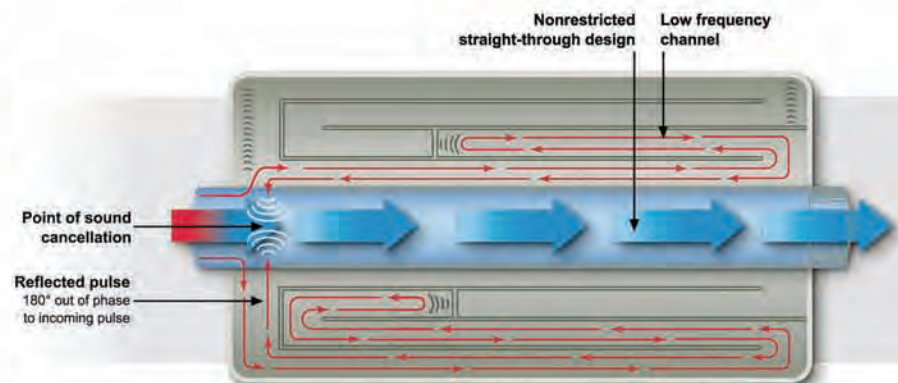

The CORSA Distinction

No Other Exhaust Manufacturer Delivers All Four:

- **NO RESONANCE/DRONE**
Due to patented Reflective Sound Cancellation™ (RSC™) technology; your exhaust is whisper quiet at highway speeds.
- **Increased Horsepower and Torque**
Resulting from a straight-through, nonrestrictive design; increased flow and less backpressure.
- **Great Performance Sound**
We tune in the good sounds and cancel the bad, without the use of baffles or steel wool packing material.
- **Better Fuel Economy**
Less backpressure means the engine does not work as hard (especially if you can keep your foot out of it).
